Summary

Operational Issues & Resolutions

- **OTD Performance Issues (4/26)**
  - 500+ barcodes impacted by system showing location closed
  - 13 batches rolled due to low runner flow
  - Investigation ongoing - unclear if system glitch or manual adjustment
  - Sites cannot edit operating hours directly
- **Product Replan Issues (4/23-4/24)**
  - 3,000 parcels required replan on 4/23
  - 100% of parcels needed replan both days
  - “Bin not available” error causing failures
  - Site team convinced it’s product bug, not operator error
  - Alfred following up on resolution
- **Late Line Haul Impacts**
  - Two egregiously late line hauls in past two weeks
  - 60-70 minute variance between LEX11 and ALI12 trucks
  - Solution: Use sort app for preferred appointment times
  - Carrier feedback implemented showing improvement
  - Future: Reducing to single hub location to eliminate variance

Site Performance & Quality Issues

- **Phoenix Returns Processing**
  - 161 barcodes showing late sort
  - Most are returns coming back mid-afternoon/next day
  - Question: Should returns count as late sort failures?
  - Need clarification on CET impact for late transport
- **Columbus Tracking**
  - Late line hauls 4/21 and 4/22
  - Replan issue 4/25 (450 parcels)
  - Recent misses: 4/18, 4/22, yesterday
  - Requesting feedback from lead tomorrow morning
- **NYC1 Quality Concerns**
  - Miss sort rate increasing with Macy’s volume growth
  - Former FPK1 manager deploying to retrain team
  - Quality reduction plan in place

- Macy's volume expected to increase further
- New dashboard shows associate-level miss sort attribution

Infrastructure & Carrier Updates

- **EWR2 Cut Time Issues**
  - CPT set at 22:00, trucks arriving 10-60 minutes late
  - Volume increase causing delays
  - Recommendation: Adjust CPT to 23:00
  - Doesn't impact OTD since sorting happens next day
  - Primarily DTX lane issue
- **Equipment & Maintenance**
  - London facility evaluating self-installation vs external vendor
  - NYC1 elopak shipped yesterday, arriving today/tomorrow
  - Pre-configured for plug-and-play setup
- **Carrier Transitions**
  - CPC (Charlotte carrier) ending this week
  - New dedicated partner replacing with better EDI
  - Four Kites real-time tracking implemented
  - ATL13 to ATL12 geofence issues due to proximity

Volume & Market Updates

- **LAX9 Volume Increase**
  - Significant pickup in volume
  - Macy's reporting weekend order increases
  - Increasing LA hub from 1 to 2 trucks
  - Petco activated Amazon DashLink (3% uptick)
  - Fashion Nova pushed same-day to existing customers
