ISSUES TRACKED

DET-13 (3.12% miss)

4/7 — P3: 150+ parcels assigned to wrong runner. QR scan captured but batch assignment mismatched; no bin stow event. Eng investigating scan capture gap.

4/8 — Wrong runner assignment during dispatch; bin scan events skipped. Eng investigating. All devices confirmed up to date.

4/8 — Overflow pallets at Grove City Watco for DET-13; new LIHJ shipment created to reroute via existing linehaul.

4/9 — Late linehaul (~8:40A); new driver parked at wrong building. Carrier escalated, driver removal if repeat.

4/11 — Scan loop error reported (batch 98b53a60).

RAL-3 (2.22% miss)

4/6 — Replan took 30+ min; had to run several times to complete. Product issue.

PIT-2 (1.72% miss)

4/9 — RTM return parcel stuck; RIC-2 hadn't shipped back to GRE. Parcel confirmed on site, scan + ship instructed.

4/11 — P1: Inbound truck page blank; 885 pkgs stuck "on truck" status. Sort app issue escalated.
