Summary

Operational Issues & Recovery Status

- EWR facility progress update from Nick
  - Working toward full Gaylord facility completion by end of day 4/21
  - Planning staffing ramp-up to meet target throughput
  - Full clearance expected by end of day 4/22
  - Processing 40-55k today, tomorrow AM sort planned at 67% of sort app volume
  - Should be cleaned up by 4/23
- LX9 site QA accuracy concerns
  - Missing QA by 9 sigma since April 1st (19 consecutive days)
  - Coincides with zone sorts being turned back on at hub
  - Sunday example: team done with dispatch at 7:30 AM, system showing 82%
  - Likely Fashion Nova overlay issue causing inaccurate reporting
  - Need someone to investigate and resolve discrepancy

Transportation & Delivery Challenges

- Phoenix PHX8 arrivals from LAX 11 & 12 experiencing inconsistent timing
  - Usually one truck arrives early, second truck delayed
  - Yesterday: small truck on time, large truck significantly late (arrived ~11 AM vs expected 7:30-8:30 AM)
  - Causing staffing issues in building
  - Need clear cutoff deadline or alternative operating scenario
  - More egregious than time zone issues - relates to CBT and CET adherence
- Sacramento delivery issue
  - Truck breakdown in transit to CLB1
  - Load didn't reach Sacramento until 2:30 PM local time
  - Freight rolled over to next day

Merchant Integration & Process Updates

- Staples internal alignment ongoing
  - Regional team and Merchant launch as primary users
  - Partners integration setup ready, just need timeline alignment
- JAX2 and Rally locations sending returns incorrectly
  - Products going back to Orlando and Charlotte FCs instead of proper routing
  - Not losing visibility once reaching FC

    - Quinn conducting research on issue

Facility Operations Updates

- Floor load process changes implemented
    - Driven by Macy's efficiency needs (2-3 floor loaded trailers)
    - New setup fully implemented last week
    - Team adjusting to new procedures, some growing pains expected
- Queens 2 scanning issues
    - Challenges with in-house palette code scanning
    - Engineering working on solution
    - Live ops working on unblocking capability

Disposal & Cleanup Issues

- BOS6 HelloFresh palette disposal needed
    - 2-day-old palette, FedEx Ground label, never picked up
    - Day 2 of sitting in warehouse
    - Will dispose via dumpster since FedEx labeled (can't scan)
    - HelloFresh ops team failed to prioritize recovery after escalation
    - Live ops team communication gap - should have provided timely disposal instructions
